[www.bit-x-bit.com](http://www.bit-x-bit.com)**FOR IMMEDIATE RELEASE****bit-x-bit EXPANDS AND MOVES TO  
PITTSBURGH'S HISTORIC FRICK BUILDING**

**PITTSBURGH, July 8, 2008** – bit-x-bit, LLC, is pleased to announce that it has moved its offices to Pittsburgh's historic Frick Building, located at 437 Grant Street, in the heart of the city's business district.

The firm's new space in the 1902 Frick Building, designed by the renowned turn of the century architecture firm D.H. Burnham and Company, is centrally located to both state and federal courts, and will accommodate bit-x-bit's growing staff and expanded Forensic Laboratory and Data Center. Although firmly rooted in Pittsburgh's distinguished commercial past, the Frick Building has 24 hour security and closed circuit television securing bit-x-bit's offices, laboratory and evidence room.

"With the Allegheny County Bar Association's recent endorsement of our computer forensic and e-discovery services, and the significant growth of our business in the past year, we needed to expand our office and laboratory space," said Susan Ardisson, Chief Executive Officer of bit-x-bit. "Our new offices in the Frick Building will allow us to better accommodate the needs of our clients including demonstrations of e-discovery technology and the results of our forensic work."

**About bit-x-bit, LLC:** Endorsed by the Allegheny County Bar Association, bit-x-bit's forensic and e-discovery services include: capture of all business documents, recovery of deleted information, hard drive imaging, back-up tape restoration, establishment of in-house e-discovery processing and review capabilities, and forensic investigations of computer use and misuse. A bit by bit image of a hard disk is an exact replica of the 1s and 0s written to the drive. The goal of the forensic investigator and e-discovery process is to capture all electronically stored information in an unaltered and forensically sound manner. Our name, bit-x-bit, derives from this process and represents our commitment to providing comprehensive and professional services. For more information about bit-x-bit's services please visit our website at [www.bit-x-bit.com](http://www.bit-x-bit.com) or call 412-325-4033.
