FOR IMMEDIATE RELEASE

bit-x-bit Expands Downtown Pittsburgh Offices in Historic Frick Building Offers Clients New E-Discovery Resource and Review Center

PITTSBURGH, November 16, 2011— For the second time in three years, bit-x-bit is doubling its downtown footprint, moving to newly renovated offices on the 12th Floor of the historic Frick Building on Grant Street.

bit-x-bit's new 3,000+ square foot headquarters includes an expanded e-discovery processing and forensic laboratory, two secure evidence rooms, and a new E-Discovery Resource and Review Center. The offices were designed to bit-x-bit's specifications, and offer sweeping views of Pittsburgh's unique skyline from the Union Trust Building to the US Steel Building. ([Click here for a photo tour](#))

The move and expansion are the result of bit-x-bit's continued growth in its core businesses: e-discovery, forensic examinations and expert testimony, and bit-x-bit's expanded geographic reach. bit-x-bit now serves clients in any geographic location in the United States, and currently provides computer forensic and electronic discovery consulting services to clients in more than 25 states and 80 cities. ([Click here for locations](#)) "Again, we are in the fortunate position of needing to expand our offices in order to better serve our clients. Our ESI collection and processing, forensic investigations, and hosted review services, have all grown tremendously in the past three years." said bit-x-bit CEO Susan Ardisson.

One of bit-x-bit's new offerings is its E-Discovery Resource and Review Center. "Our new Center provides our clients with hardware, software, technical support and assistance, and project management to conduct an efficient and economical review of any size of project," said Scott Ardisson, President of bit-x-bit.

About bit-x-bit: Founded in 2007 by brother and sister Scott Ardisson and Susan Ardisson, bit-x-bit provides e-discovery and computer forensic consulting services to most of Pittsburgh's major law firms, many local and national companies, as well as Duquesne University and the Office of Attorney General for the Commonwealth of Pennsylvania. Since 2008, bit-x-bit has enjoyed the exclusive endorsement of the Allegheny County Bar Association (ACBA) to provide computer forensic and e-discovery consulting services to the ACBA's members.
