## FOR IMMEDIATE RELEASE

### Pittsburgh Technology Council's *TEQ Magazine* Profiles bit-x-bit's PRESIDENT SCOTT ARDISSON

**PITTSBURGH, Pennsylvania, February 18, 2008:** bit-x-bit, LLC, is pleased to announce that **W. Scott Ardisson**, President of bit-x-bit, LLC is profiled in an article, "Computer Forensics Pro" in this month's issue of **TEQ** published by the **Pittsburgh Technology Council**.

Mr. Ardisson's profile on computer forensics and bit-x-bit's e-discovery litigation support services is featured in the January/February 2008 issue of **TEQ** on "The Next Generation of Power" which is available on line and may be accessed by [clicking here](#). As to bit-x-bit, Mr. Ardisson stated that "[b]ecause our expertise is in both the legal and computer forensic areas, we are uniquely positioned to serve the needs of the e-discovery market."

Now in its fourteenth year, **TEQ** is a bi-monthly publication of the Pittsburgh Technology Council, which "serves the business to business information needs of area technology companies." The Pittsburgh Technology Council, with more than 1300 members, is a regional association of technology companies, professional service firms and academic and civic organizations "working to foster the development and growth of the technology industry in western Pennsylvania."

**About bit-x-bit, LLC:** A bit by bit image of a hard disk is an exact replica of the 1s and 0s written to the drive. The goal of the forensic investigator and e-discovery process is to capture all electronically stored information in an unaltered and forensically sound manner. Our name, **bit-x-bit**, derives from this process and represents our commitment to providing comprehensive and professional services. Representing Pittsburgh's major law firms, our services include assisting our clients in selecting and establishing electronically stored data handling and management capabilities, as well as e-discovery litigation support, forensic investigation and expert services.
