## FOR IMMEDIATE RELEASE

### **bit-x-bit receives the ACBA's exclusive endorsement for the eighth year running**

**PITTSBURGH, May 13, 2014** – **bit-x-bit, LLC**, is pleased to announce that it has once again received the exclusive endorsement of the Allegheny County Bar Association (ACBA) to provide computer forensics, data loss prevention and e-discovery consulting services to the ACBA's more than 6,500 members.

"We are certain that our members will continue to find bit-x-bit's services helpful to their practices," said ACBA Executive Director David Blaner.

Since receiving the ACBA's exclusive endorsement in 2008, bit-x-bit has worked on more than 250 matters for 60+ Pittsburgh law firms and their clients, as well as hundreds of other cases throughout the country. As part of its services to the ACBA, bit-x-bit regularly provides assistance to ACBA members with general questions relating to computer forensic, data loss prevention and e-discovery issues.

"We are again honored to receive the ACBA's endorsement. For the past eight years, we have very much enjoyed working with the ACBA and its members. We will continue to strive to provide the highest quality of e-discovery and forensic services in the region to the Pittsburgh legal community," said Susan Ardisson, Esq., Chief Executive Officer of bit-x-bit.

Through the endorsement, ACBA members receive a 5% discount on bit-x-bit's hourly charges and services. As part of the ACBA program, bit-x-bit regularly plans and holds continuing legal education courses for the ACBA. Since 2008, bit-x-bit has prepared and coordinated eleven CLEs including the annual E-Discovery Symposium, which is co-sponsored by the ACBA and PBI.

Since receiving the ACBA's endorsement in 2008, bit-x-bit has become a Relativity Premium Hosting Partner, offering kCura's Relativity, the industry leader in e-discovery hosted review platforms, which is used by 100,000 lawyers a month, including AM LAW 100 firms. Scalable to all sizes of cases, Relativity's predictive coding and data analytics can tame "big data" cases and accelerate the review of hundreds of thousands of documents.
